EDUCATION

Indian Institute of Information Technology, BHOPAL Dec. 2021 – June 2025

Bachelor of Technology in Information Technology Bhopal, Madhya Pradesh

Allahabad Public School, Prayagraj

High School – 95% | Intermediate – 81%

SKILLS

Languages & Frontend: JavaScript, Python, C++, React.js, Tailwind CSS, HTML5, CSS3

Backend & Databases: Node.js, Express.js, REST APIs, Socket.io, MongoDB, DynamoDB

Cloud, AI & Security: AWS (Lambda, S3, SES), OpenAI API, OpenAI Voice Agent, Gemini API, JWT, Bcrypt, Git

EXPERIENCE

RedyHire May 2025 – Present

Software Developer Bangalore

AI Interviewer

- Engineered an AI-driven voice interview agent using the OpenAI Voice Agent, enabling real-time conversational interviews and cutting manual screening effort by an estimated 60%.
- Resolved recurring hallucination issues by summarizing interview context every 30 minutes, reducing token usage by roughly 40% while keeping the agent grounded in the discussion.
- Designed configurable interview flows, letting recruiters select from an existing coding-question bank or add custom questions for the agent to ask candidates.
- Automated post-interview scoring by triggering an AWS Lambda function to evaluate candidate responses with AI, reducing manual review time by an estimated 50%.
- Maintained persistent low-latency connections via Socket.io, supporting uninterrupted interview sessions of up to 60 minutes.

Bulk Question Creation

- Automated bulk question ingestion from Excel and Word files using AWS S3 and Lambda, cutting manual upload time by an estimated 70%.
- Parsed hundreds of questions from unstructured Word documents using the OpenAI API with structured JSON prompts, removing manual data entry.
- Strengthened data quality by applying AI-based validation to check question format and accuracy before persisting records to the database.

Candidate Search

- Delivered cross-job candidate search by email or phone number, cutting recruiter lookup time from minutes to seconds.
- Optimized query performance by designing two DynamoDB GSIs (businessUnitId + email, businessUnitId + phoneNumber), enabling efficient lookups across large candidate datasets.

Dynamic Mail Template Creation

- Launched a self-service email template builder, empowering clients to create and manage reusable templates stored in DynamoDB.
- Integrated AWS SES to automate bulk email delivery, improving send reliability while scaling outreach to thousands of recipients.

PROJECTS

Chatify - Full Stack Chat Application | *React.js, Node.js, Express.js, Socket.io, MongoDB, Tailwind CSS* [link](#)

- Engineered a real-time chat application on the MERN stack with Socket.io, supporting instant messaging for multiple concurrent users.
- Designed a responsive, cross-device UI with React.js and Tailwind CSS, ensuring a consistent experience on desktop and mobile.
- Secured user sessions with JWT-based authentication, protecting access to private chat data.
- Strengthened credential security by hashing passwords with Bcrypt prior to storage.

ACHIEVEMENTS

- Selected for the Indian Air Force in February 2021, reflecting exceptional physical fitness, discipline, and national-level merit.
- Secured All-India Rank 103 in the International Mathematics Olympiad (IMO), 2017, reflecting advanced analytical ability.
- Captained the IIIT Bhopal Cricket Team to a Silver Medal at IIM Indore Sports Fest (2022) and a Bronze Medal at the Inter-IIIT Sports Meet at IIIT Gwalior.
